Field Descriptions (F12) indicates code lookup is available.

PROV NO (F12)

Enter the provider number of the provider you wish to add/view facility service details for.

PROV NAME

This field will display the provider name of the provider whose ID is entered in the PROV NO field.

FACIL NAME

This field will display the facility name of the provider whose ID is entered in the PROV NO field.

SEL

Enter an "A" to add a new service, an "M" to modify an existing service or a "D" to delete an existing service (only valid if the service has not been entered for a client.)

SVC (F12)

Enter the code for the service the provider/facility is being authorized to provide.

DESCRIPTION

This field will display the description of the service code entered in the SVC field.

RATE

Enter the rate for the service. Certain services will default in the standard state rate. A rate should not be entered if the provider may charge varying rates for the same service. If the rate is highlighted in pink, this indicates the rate was manually entered/overridden by a worker and is not the system defaulted rate.

UNT TYP (F12)

This field will display the unit type associated with the service code entered in the SVC field (for example – hourly, monthly, daily.)

AGE RANGE

This field will display the valid age range associated with the service code entered in the SVC field.

EFFECTIVE DATE

For defaulted services, this field will default the effective date to be the same as the issuance date of the associated license. For manually entered services, enter the date the provider/facility began providing that service.

END DATE

Enter the date the service is no longer valid for the provider/facility. If a rate is manually entered in the rate field, the end date will automatically default to the end of the fiscal year (June 30.) Once a service has been used for a client, the system will only allow a future end date.

FAC TYP (F12)

For defaulted services, this field will default the license type associated with the service. For manually entered services, enter the valid license type. The system will not allow services that require a license to be entered if the provider/facility does not have a valid license or is not licensed with the required license type for the service.

CON IND

This field will display an “N” if no contract is required, a “P” if a contract is preferred or an “R” if a contract is required. For required contract services, the system will not allow the service to be entered for a client until the contract has been executed.

Additional Information

Certain services are defaulted in when certain licenses are approved on the FALD (Facility Approval/Licensing Detail) screen. Other services may be entered by Central Office staff, regional fiscal officers (DPHHS) and regional administrative officers (DOC).
