Field Descriptions (F12) indicates code lookup is available.

CAPS ID (F12)

This field will display the CAPS ID of the client whose CHIMES information needs to be resolved.

NAME

This field will display the name of the client whose ID is displayed in the CAPS ID field.

INTERFACE DATE

This field will display the date the interface took place.

CAPS DATA – ADDRESS – if CHIMES is sending an address type that does not currently exist in CAPS, the CAPS DATA side will be blank. If an address does exist, this information will be for the most current address for that address type.

TYPE

This field will display the type of CAPS address.

STR LIN1

This field will display the street address or P.O Box information for the CAPS address.

STR LIN2

This field will display additional information, such as an apartment number or “in care of” information for the CAPS address.

CITY/ST

This field will display the city and state where the CAPS address is located.

ZIP CODE

This field will display the zip code for the CAPS address.

COUNTY

This field will display the county where the CAPS address is located. *This will only display for addresses within the state of Montana.*

START DT

This field will display the start date for the CAPS address.

END DT

This field will display the end date for the CAPS address if the address is no longer valid. *Even though there could be an end date, if it is still the most current address, it will display.*

PHONE

This field will display the phone number for the client that is associated to the CAPS address.

TEAMS DATA – ADDRESS

TYPE

This field will display the type of CHIMES address.

STR LIN1

This field will display the street address or P.O Box information for the CHIMES address.

STR LIN2

This field will display additional information, such as an apartment number or “in care of” information for the CHIMES address.

CITY/ST

This field will display the city and state where the CHIMES address is located.

ZIP CODE

This field will display the zip code for the CHIMES address.

COUNTY

This field will display the county where the CHIMES address is located. *This will only display for addresses within the state of Montana.*

START DT

This field will display the start date for the CHIMES address.

END DT

This field will display the end date for the CHIMES address if the address is no longer valid. *Even though there could be an end date, if it is still the most current address, it will display.*

PHONE

This field will display the phone number for the client that is associated to the CHIMES address.

TO SELECT, TYPE D=DELETE ALL CHIMES DATA

When you are finished resolving the changes from CHIMES, enter "D", press ENTER and press SHIFT+F4 to confirm. This will delete your alert from the ALER (Alerts) screen. *If CHIMES is sending additional addresses, you will not see this message but rather "F8=SEE MORE DATA" – press F8 to see the next address to resolve.*

Additional Information

If a CHIMES address is selected, the current address of that type will be end-dated with the date prior to the current date and the CHIMES address will become the current CAPS address with a start date of current date.
